

This letter discusses the Service Occupation Tax. 86 Ill. Adm. Code 140.101.
(This is a GIL.)

December 7, 2021

Re: COMPANY

Dear NAME:

This letter is in response to your letter dated November 18, 2021, in which you requested information. The Department issues two types of letter rulings. Private Letter Rulings ("PLRs") are issued by the Department in response to specific taxpayer inquiries concerning the application of a tax statute or rule to a particular fact situation. A PLR is binding on the Department, but only as to the taxpayer who is the subject of the request for ruling and only to the extent the facts recited in the PLR are correct and complete. Persons seeking PLRs must comply with the procedures for PLRs found in the Department's regulations at 2 Ill. Adm. Code 1200.110. The purpose of a General Information Letter ("GIL") is to direct taxpayers to Department regulations or other sources of information regarding the topic about which they have inquired. A GIL is not a statement of Department policy and is not binding on the Department. See 2 Ill. Adm. Code 1200.120. You may access our website at www.tax.illinois.gov to review regulations, letter rulings and other types of information relevant to your inquiry.

The nature of your inquiry and the information you have provided require that we respond with a GIL. In your letter you have stated and made inquiry as follows:

To Whom It May Concern:

I, ACCOUNTANT, am the accountant and tax return preparer for COMPANY, a newly formed S-Corporation in Illinois. I am writing today to get some clarity on the taxability of the services provided by this company as I have not been able to find any information in the regulations that specifically speak to the nature of this business.

As you can see from the website article (copy attached), the company takes PRODUCT1 and dehydrates them before blending them in to a powder and then encapsulating them in vitamin pill capsules for the PERSON where the product initially came from.

After reviewing this, we have come to understand that this service generally falls under the same category as vitamin manufacturing with a slight twist. It would not be fair to tax the whole service as the low tax rate because the State would essentially be placing a tax on a PRODUCT2 which is specifically addressed in 720 ILCS 5/12-20. Instead, it would seem to make more sense to impose a low food/medical tax rate on only the capsules and packaging which those capsules are put in to since the encapsulation processing can be excluded from tax since it is essentially a service.

I ask that you please review this information and provide guidance as to the taxation of this business model

If you have any questions, please feel free to contact me directly

DEPARTMENT'S RESPONSE:

Retailers' Occupation Tax and Use Tax

The Illinois Retailers' Occupation Tax Act imposes a tax upon persons engaged in this State in the business of selling tangible personal property to purchasers for use or consumption. See 35 ILCS 120/2; 86 Ill. Adm. Code 130.101. In Illinois, Use Tax is imposed on the privilege of using, in this State, any kind of tangible personal property that is purchased anywhere at retail from a retailer. See 35 ILCS 105/3; 86 Ill. Adm. Code 150.101. These taxes comprise what is commonly known as "sales" tax in Illinois. If the purchases occur in Illinois, the purchasers must pay the Use Tax to the retailer at the time of purchase. The retailers are then allowed to retain the amount of Use Tax paid to reimburse themselves for their Retailers' Occupation Tax liability incurred on those sales. If the purchases occur outside Illinois, purchasers must self-assess their Use Tax liability and remit it directly to the Department.

Service Occupation Tax

Retailers' Occupation Tax and Use Tax do not apply to sales of service. Under the Service Occupation Tax Act, businesses providing services (i.e., servicemen) are taxed on tangible personal property transferred as an incident to sales of service. See 86 Ill. Adm. Code 140.101. The transfer of tangible personal property to service customers may result in either Service Occupation Tax liability or Use Tax liability for servicemen, depending upon which tax base they choose to calculate their liability. Servicemen may calculate their tax base in one of four ways: (1) separately stated selling price of tangible personal property transferred incident to service; (2) 50% of the serviceman's entire bill; (3) Service Occupation Tax on the serviceman's cost price if the serviceman is a registered de minimis serviceman; or (4) Use Tax on the serviceman's cost price if the serviceman is de minimis and is not otherwise required to be registered under Section 2a of the Retailers' Occupation Tax Act.

Using the first method, servicemen may separately state the selling price of each item transferred as a result of sales of service. The tax is based on the separately stated selling price of the tangible personal property transferred. If servicemen do not wish to separately state the selling price of the tangible personal property transferred, those servicemen must use the second method where they will use 50% of the entire bill to their service customers as the tax base. Both of the above methods provide that in no event may the tax base be less than the cost price of the tangible personal

property transferred. Under these methods, servicemen may provide their suppliers with Certificates of Resale when purchasing the tangible personal property to be transferred as a part of sales of service. They are required to collect the corresponding Service Use Tax from their customers.

The third way servicemen may account for their tax liability only applies to de minimis servicemen who have either chosen to be registered or are required to be registered because they incur Retailers' Occupation Tax liability with respect to a portion of their business. Servicemen may qualify as de minimis if they determine that their annual aggregate cost price of tangible personal property transferred incident to sales of service is less than 35% of their annual gross receipts from service transactions (75% in the case of pharmacists and persons engaged in graphic arts production). See 86 Ill. Adm. Code 140.101(f). This class of registered de minimis servicemen is authorized to pay Service Occupation Tax (which includes local taxes) based upon the cost price of tangible personal property transferred incident to sales of service. Servicemen that incur Service Occupation Tax collect the Service Use Tax from their customers. They remit tax to the Department by filing returns and do not pay tax to their suppliers. They provide suppliers with Certificates of Resale for the tangible personal property transferred to service customers.

The final method of determining tax liability may be used by de minimis servicemen that are not otherwise required to be registered under Section 2a of the Retailers' Occupation Tax Act. Servicemen may qualify as de minimis if they determine that the annual aggregate cost price of tangible personal property transferred as an incident of sales of service is less than 35% of the servicemen's annual gross receipts from service transactions (75% in the case of pharmacists and persons engaged in graphic arts production). Such de minimis servicemen handle their tax liability by paying Use Tax to their suppliers. If their suppliers are not registered to collect and remit tax, the servicemen must register, self-assess, and remit Use Tax to the Department. The servicemen are considered to be the end-users of the tangible personal property transferred incident to service. Consequently, they are not authorized to collect a "tax" from the service customers. See 86 Ill. Adm. Code 140.108.

If a transaction does not involve the transfer of any tangible personal property to the customer, then it generally would not be subject to Retailers' Occupation Tax, Use Tax, Service Occupation Tax, or Service Use Tax.

It appears the company is acting as a serviceman and would owe tax under one of the four methods described above.

I hope this information is helpful. If you require additional information, please visit our website at www.tax.illinois.gov or contact the Department's Taxpayer Information Division at (217) 782-3336.

Very truly yours,

FIRM./COMPANY
